

Jannis Teunissen

Personal data

Official name: Herman Jan Teunissen

Date of birth: July 8th, 1987

Nationality: Dutch

mail: jannis@teunissen.net

www: www.teunissen.net

Education

2009–2011: Master: ‘Grid Computing: Computational Science’ (cum laude)
University of Amsterdam

2005–2008: Bachelor: ‘Physics & Astronomy’ (cum laude)
University of Amsterdam

1999–2005: High school: Gymnasium, Science track
Barlaeus, Amsterdam

Work experience

2011–2015: PhD on modeling gas discharges, supervisor: Ute Ebert
Centrum Wiskunde & Informatica

2008–2009: Student assistant for Physics Lab Course 1 & 2
University of Amsterdam

2008: IT support (about five months part-time)
Tele2 Netherlands

2004–2008: Tutoring students in physics and mathematics

Expertise

My main expertise is computational science (or scientific computing). This includes a decent *low-level* understanding of a contemporary computer, and knowledge of diverse programming languages and algorithms. From my education in physics and PhD research, I have gained sound knowledge of some of the branches of physics, such as plasma physics, classical mechanics and electrostatics.
